LANDSCAPE DEPARTMENT.

Landscape gardening is one of the prime features of our business, and is under the actual supervision of our Mr. Donald McLaren, who executed all the planting at the Panama-Pacific International Exposition, in the capacity of Assistant Landscape Engineer.

We execute every detail of the laying out of grounds large or small. We supply our patrons with detailed plans and specifications and estimates charging only a nominal fee for same. This fee covers the actual cost of drafting and expense. After supplying our patrons with detailed estimates covering all rough gardening, such as excavating, filling, supplying of loam and manure, pipe road work, plants and installation of plants, we execute the work at actual cost, plus a superintendence commission of 10 per cent.

In this way every detail of landscape gardening is actually figured out and a comprehensive, homogeneous plan is presented before operations are begun.

In presenting our price list 1915-1916, we desire to call the attention of our patrons to the fact that we are continually importing quantities of nursery stock, and while our catalogue contains a fair record of what we have on hand at the time of its issue, we will be adding to our stock throughout the planting season.

We are in a position to supply any trees, plants or shrubs in any quantity, and invite inquiry.

We specialize in hardy, high grade field grown stock, suitable to our climatic conditions. The unequalled reputation which we hold as growers, not only locally but throughout the country is a tribute to the care which we exercise in the execution of our orders.

Our Nurseries are at Beresford, about two miles south of San Mateo. The Southern Pacific train leaving Third and Townsend Depot, San Francisco, at 11:40, stops in the nursery grounds.

PRICES AND QUANTITIES.

Articles mentioned in following list will be furnished at prices named as follows. Five at 10 rate, 50 at 100 rate, 500 or more at 1000 rate. Less than five of a variety at the single rate.

Packing: We employ only experienced packers and all our trees and shrubs are labelled. We charge for packing and packing material at actual cost.

Shipping: For truck load lots we deliver within a radius of 25 miles of San Mateo free of charge.

Express or Freight: Method of shipment should be clearly stipulated. When no specification is made we exercise our best judgment, but assume no responsibility for losses or delays occasioned through negligence of transportation companies. We have a spur track in our nursery grounds which makes it possible for us to superintend the packing of large freight shipments and also saves unnecessary handling of plants.

Replacements: Inasmuch as we have no control over planting or care of trees, plants, or shrubs after they leave our hands, we do not agree to assume any obligation to replace same if they die. Plants delivered in perfect condition become the property of the purchaser at the time of delivery.

We are always willing to rectify any errors or shortages, and we respectfully request that our patrons report same on receipt of goods, or at least within ten days thereafter.

Terms: Our terms are thirty days net, 2 per cent ten days. To customers unknown to us cash remittances are required.

Ornamental Evergreen Trees and Shrubs

Abelia Grandiflora (Rupestris). 6 to 10 feet. A fine everblooming shrub of gracefully drooping habit, covered with white tube-like sweet scented flowers, flushed lilac-pink. We class this as one of the finest flowering shrubs. The garnet tinge of the young foliage is an added attraction to this shrub.

	each	per 10	per 100
Field grown, 1 to 1½ feet.....	\$.50	\$4.00	\$35.00
From 6 inch pots, 2 to 3 feet.....	.60	5.00	40.00

Abies (Fir). Evergreens characterized by their symmetrical growth and usually conical outline. Leaves needle-like and separate, not in bundles or tufts. Almost all the species are very beautiful specimen trees. We have the following:

Abies Cephalonica "Cephalonian Silver Fir."

Abies Concolor, "White Fir."

Abies Grandis.

Abies Nordmanniana, "Nordman's Silver Fir."

	each	per 10	per 100
3 to 4 feet.....	\$5.00	\$40.00	\$350.00
2 to 3 feet.....	3.50	30.00	270.00

Established plants or specimens—prices on application.

ACACIAS.

Highly ornamental and decorative rapid growing shrubs and trees. We have a collection of over fifty varieties, mostly natives of Australia. We have devoted particular attention to the development of Acacias in California, and have found them to be one of the most satisfactory evergreens. The following are some of the best species which we offer:

A. Armata. 10 feet. Spreading, drought resisting shrub. Small light yellow flowers in solitary globular heads. Profuse bloomer in February. Excellent for grouping.

	each	per 10
From 6 inch pots, 5 to 6 feet.....	\$.60	\$5.00
From 6 inch pots, 4 to 5 feet.....	.50	4.00
From 5 inch pots, 3 to 4 feet.....	.40	3.50

A. Baileyana. 30 feet. Leaves and branches glaucous fern-like with silvery sheen. Covered with mass of bright canary-yellow flowers in January. One of the handsomest of all flowering trees.

	each	per 10	per 100
From 6 inch pots, 4 to 5 feet.....	\$.85	\$7.50	\$65.00
From 5 inch pots, 3 to 4 feet.....	.75	6.50
From 5 inch pots, 2 to 3 feet.....	.60	5.00

A. Calamifolia (Broom Wattle). 6 to 10 feet. Large spreading shrub. Leaves linear, 3 inches long. Flowers in racemes. Soft and graceful shrub. Blooms in February. (New.)

	each	per 10	per 100
From 3 and 4 inch pots, 1 to 1½ feet....	\$.35	\$3.00	\$25.00

A. Cultriformis. 10 feet. Leaves acute and glaucous and undivided. Very heavy bloomer. Flowers deep golden yellow. Long drooping branches. Excellent for grouping. Hardy.

	each	per 10
From 5 inch pots. 1½ to 2½ feet.....	\$.35	\$25.00

- A. Dealbata** (Silver Wattle). 40 feet. A rapid growing tree. Feathery fern-like bluish foliage. Golden yellow flowers. An excellent avenue tree.

	each	per 10	per 100
From 6 inch pots, 3 to 4 feet.....	\$.50	\$4.00	\$30.00
From 6 inch pots, 2 to 3 feet.....	.35	3.00	20.00

- A. Decurrens** (normalis). (Green Wattle.) 60 feet. Leaves feathery and finely divided, dark green. Flowers whitish yellow. Blooms March to May. Upright habit. Often used as an avenue tree.

	each	per 10	per 100
From 6 inch pots, 6 to 7 feet.....	\$.60	\$5.50	\$50.00
From 6 inch pots, 4 to 5 feet.....	.50	4.00	35.00
From 6 inch pots, 3 to 4 feet.....	.40	3.50	30.00
From 6 inch pots, 2 to 3 feet.....	.35	2.50	20.00

- A. Floribunda**. 30 feet. Quick growing tree. Leaves bright green, long and slender. Flowers yellow in short racemes, very fragrant. Blooms in summer. Excellent for grouping, soft and lacy in texture.

	each	per 10	per 100
From 5 and 6 inch pots, 6 to 7 feet.....	\$.60	\$5.00	\$40.00
From 5 and 6 inch pots, 5 to 6 feet.....	.50	4.00	35.00
From 4 inch pots, 2 to 3 feet.....	.35	3.00	25.00

- A. Farnesiana**. 10 feet. Much branched shrub. Stem covered with minute spines. Deciduous. Leaflets narrow, linear, glaucous. Large deep yellow flowers. Very fragrant. Blooms in February and March. (New.)

	each	per 10
From 5 gal. cans, 4 to 5 feet.....	\$1.00	\$9.00
From 5 gal. cans, 3 to 4 feet.....	.80	7.50

- A. Latifolia** (longifolia). (Green Wattle.) 50 feet. Quick grower. Large undivided light green leaves. Spreading habit. Highly floriferous. Golden yellow flowers. Excellent for grouping. Used for screen planting. Can also be trained to standard form. A very useful shrub.

Standards in neat green boxes, stem 6 to 8 feet

Crown 24 inches in diameter.....	\$4.00 to \$7.50
36 to 44 inches.....	\$15.00

	each	per 10	per 100
From 6 inch pots, 5 to 6 feet.....	\$.40	\$3.50	\$25.00
From 6 inch pots, 4 to 5 feet.....	.35	3.00	20.00
From 6 inch pots, 3 to 4 feet.....	.30	2.50	18.00
From 4 inch pots, 2 to 3 feet.....	.20	1.50

- A. Linearis**. 20 feet. A soft and delicate shrub with long needle-like leaves. Flower heads bright yellow. Blooms in August.

	each	per 10	per 100
From 6 inch pots, 2 to 3 feet.....	\$.40	\$3.00	\$25.00
From 5 inch pots, 1½ to 2 feet.....	.30	2.50	20.00

- A. Lophantha**. 20 feet. Leaflets large. Much divided feathery foliage of tropical suggestion. Flower spikes 2 inches long. Yellowish green. A very quick grower. Can be trained to square table-form.

	each	per 10	per 100
In tubs, 5 to 6 feet.....	\$.60	\$5.00	
From 6 inch pots, 4 to 5 feet.....	.50	5.00	
From 5 inch pots, 2 to 3 feet.....	.35	2.50	\$20.00
From 4 inch pots, 1 to 2 feet.....	.25	2.00	15.00

A. Melanoxyton (Australian Black Wood). 80 feet. A strong, erect and symmetrical grower. One of the best trees for parks and street ornamentation. Bears pruning splendidly. Blade leaves. Flowers pale yellow. Blooms in March. Can be trained to any desired form and kept any size.

	each	per 10	per 100
In tubs, 8 to 10 feet.....	\$1.50	\$12.50	\$100.00
From 6 inch pots, 7 to 8 feet.....	.80	7.50	70.00
From 6 inch pots, 6 to 7 feet.....	.75	7.00	65.00
From 6 inch pots, 5 to 6 feet.....	.70	6.00	50.00
From 6 inch pots, 4 to 5 feet.....	.50	4.00	35.00

A. Mollissima (Black Wattle). 40 feet. One of the best of its class. Foliage feathery, dark green. Flowers fragrant. Very profuse bloomer. Often used as avenue tree. Blooms December to March.

	each	per 10	per 100
From 5 inch pots, 2 to 3 feet.....	\$.35	\$3.00	\$20.00

A. Pravissima. 20 feet. Similar to Cultriformis. Smaller foliage but a more profuse bloomer. Flowers early. More graceful in habit than Cultriformis.

	each	per 10	per 100
From 6 inch pots, 3 to 4 feet.....	\$.60	\$5.00	\$45.00
From 4 and 5 inch pots, 2 to 3 feet.....	.50	4.00	35.00

A. Pycnantha (Golden Wattle). 50 feet. Leaves large, undivided and waxy. Flowers large golden-yellow in pendulous clusters. Fragrant. Blooms in February.

	each	per 10	per 100
From 4 and 6 inch pots, 3 to 4 feet.....	\$.50	\$4.50	\$40.00

A. Saligna. 25 feet. Small tree of rather weeping habit. Flower heads few but very large and showy. Blooms in March. Similar to Pycnantha, often so classed.

	each	per 10	per 100
From 6 inch pots, 2 to 3 feet.....	\$.40	\$3.00	\$25.00
From 4 and 5 inch pots, 1 to 2 feet.....	.25	2.00	15.00

A. Verticillata. 10 feet. Leaves dark green, sharp and rigid. Graceful weeping variety. Splendid flowering habit. Flowers in small yellow spikes. Profuse bloomer, April and May.

	each	per 10	per 100
From 5 and 6 inch pots, 3 to 4 feet.....	\$.50	\$4.50	\$40.00

Andromeda Japonica. Beautiful flowering shrub of low growth, bearing great panicles of bell-like blossoms. Appropriately called the "lily of the valley" shrub. Prefers shady moist situation.

	each	per 10	per 100
Field grown, 1½ to 2 feet.....	\$.75	6.00	\$50.00

Aralia Sieboldii (Japan). Shrub with straight stem, large palmately-lobed leaves. Smooth deep glossy green. Desires shaded location and much used as an ornamental potted plant. Excellent where tropical effect is desired.

	each	per 10	per 100
Potted, 1½ to 2 feet.....	\$1.00	\$8.00	\$75.00

A. Sieboldii Variegata. A form of the above with conspicuous white variegation.

	each	per 10	per 100
Potted, 1½ to 2 feet.....	\$1.25	\$10.00	\$80.00

Specimen plants. Prices on application.

Araucaria Bidwelli (Bunya-Bunya). 150 feet. One of the best Conifers for California. Leaves flat, sharp and dark glossy green. Makes a shapely, compact and symmetrical tree when old, the lower branches striking the ground about ten feet from the trunk and then rising to a height of about three feet. A Specimen plant.

	each	per 10
Field grown, 3 to 4 feet.....	\$3.00	\$27.50

A. Imbricata (Monkey Puzzle). 100 feet. Fine tree of unusual appearance. Pyramidal form. Trunk straight with blunt branches in regular whorls. Leaves bright green, broad, thick-pointed and overlapping each other.

	each	per 10
In tubs, 2½ to 3 feet.....	\$3.00	\$27.50
In tubs, 2 to 2½ feet.....	2.50	22.50
In tubs, 1½ to 2 feet.....	2.25	20.00

Araucaria excelsa (Norfolk Island Pine). Norfolk Island. Fine symmetrical tree, branches growing in tiers; leaves minute and clear green; awl-shaped and curved. Trunk between tiers of leaves is perfectly bare.

	each	per 10	per 100
From 6 and 7 inch pots, 2 to 3 feet.....	\$1.75	\$15.00	\$125.00
From 5 and 6 inch pots, 1 to 1½ feet.....	1.25	10.00	75.00

Arbor Vitae (See Thuya).

Arbutus Unedo (Strawberry Tree). 15 feet. Erect growth, rich green serrated foliage. White heath-like flowers. Red strawberry-like fruits appear in winter. Highly desirable in California.

	each	per 10	per 100
In 16 inch tubs, established, 4 to 5 ft.....	\$1.75	\$15.00	\$.....
In 12 inch pails, 3 to 4 feet.....	1.50	12.50	100.00
Field grown, 1½ to 2 feet.....	.60	5.00	40.00
Field grown, 1 to 1½ feet.....	.50	4.00	35.00

Aucuba Japonica Variegata. Variegated form of Japanese Laurel. Leaves coarsely serrated, marked with conspicuous yellow spots. Shade loving, highly ornamental shrub. Suitable for pot culture.

	each	per 10	per 100
Field grown, 2 to 3 feet.....	\$2.75	\$25.00	\$225.00
Field grown, 1½ to 2 feet.....	2.25	20.00	175.00
Field grown, 1 to 1½ feet.....	1.75	15.00	125.00

Azalea Hinodogiri. A superb low growing evergreen shrub of bushy habit and perfect hardiness. Flowers bright scarlet-magenta, small and produced in solid mass in spring. Leaves become bronze tinted in fall. Excellent for beds, borders or low grouping.

	each	per 10	per 100
Potted, 1½ to 2 feet.....	\$1.50	\$12.50	\$100.00

Berberis Darwinii. 3 feet. One of the handsomest of the ever-green berried plants. Small bright holly-like leaves. Plants densely branched. Flowers orange yellow. Blooms profusely in early spring. Of great value in shrubberies.

	each	per 10	per 100
Field grown, 2 to 3 feet.....	\$1.00	\$7.50	\$60.00
Field grown, 1½ to 2 feet.....	.60	5.50	50.00
Field grown, 1 foot.....	.50	4.50	40.00

Buddleia Globosa. 10 feet. Chile. Compact shrub. Leaves long, rough and narrow. Flowers, orange yellow.

	each	per 10	per 100
Field grown, 1 to 1½ feet.....	\$.40	\$3.50	\$25.00

Buddleia Variabilis Veitchii. New variety from China. Loose, graceful habit with flowers in long spikes, delicately lilac colored, 10 to 12 inches long. Blooms profusely. Very rapid grower.

	each	per 10	per 100
Field grown, 1 to 1½ feet.....	\$.50	\$4.50	\$40.00

Buxus (Boxwood). These very ornamental shrubs of dense but rather slow growth, with shining foliage are invaluable for grouping, lawn decoration and for hedge purposes. For tub culture and for formal decorative work they are more extensively grown than any other plant. They thrive in a warm, dry climate fully as well as on the Coast.

Buxus Sempervirens, Pyramids.

Field grown, 6 feet.....	\$15.00
Field grown, 5 feet.....	10.00
Field grown, 4½ feet.....	7.50
Field grown, 4 feet.....	5.00
Field grown, 3½ feet.....	4.00
Field grown, 3 feet.....	3.00

If planted in green pails add \$.50 per plant.

B. Sempervirens, Bushes.

Field grown, 3 to 3½ feet.....	\$7.50
Field grown, 2½ to 3 feet.....	5.00
Field grown, 2 to 2½ feet.....	3.50
Field grown, 15 to 18 inches.....	1.00
Field grown, 12 to 15 inches.....	.60
Field grown, 10 to 12 inches.....	.50

If planted in green pails add \$.50 per plant.

Buxus, Ball Shaped.

Field grown, 18 to 20 inches in diameter.....	\$5.00
---	--------

If planted in green pails add \$.50 per plant.

Buxus Sempervirens Suffruticosa (dwarf) for edging.

	per 100	per 1000
6 to 8 inches.....	\$6.00	\$50.00
4 to 6 inches.....	5.00	40.00

BROOM.

Cytisus Albus (Portugal). Moderate sized shrub with long slender branches covered with numerous pure white flowers. One of the most showy spring flowering shrubs. Excellent for cutting.

	each	per 10	per 100
From 5 inch pots, 1 foot.....	\$.50	\$4.50	\$40.00

Cytisus Canariensis. 10 feet. A quick growing shrub of dense habit. Downy branches and leaves. Flowers in racemes bright yellow and fragrant. Spring flowering.

	each	per 10	per 100
From 6 inch pots, cut back 2 to 3 feet....	\$.40	\$3.50	\$30.00

Cytisus Candicans. A form of the above with smaller leaves, and small yellow fragrant flowers, borne in utmost profusion in spring.

	each	per 10	per 100
From 5-6 in. pots, cut back 2 to 3 ft....	\$.40	\$3.50	\$30.00

Cytisus Racemosus (Dwarf variety). Flowers bright yellow, disposed to a terminal spike. Six inches long. Excellent for window boxes and pot work.

	each	per 10	per 100
From 6 inch pots, cut back 1 to 1½ ft....	\$.75	\$6.00	\$50.00

Cytisus Scoparius (Scotch). 10 feet. Similar to C. Albus. Branches more rigid. Large clear yellow pea-shaped flowers, borne profusely in early spring.

	each	per 10	per 100
From 4 and 5 inch pots, 1½ to 2 feet....	\$.50	\$4.50	\$40.00

Spartium Junceum (Spanish Broom). Strong, quick-growing shrub of upright growth. Branches clear green, cylindrical and almost devoid of leaves. Large pea-like bright yellow fragrant flowers. Continuous bloomer.

	each	per 10	per 100
From 5 and 6 inch pots, 4 to 5 feet.....	\$.60	\$5.00	\$40.00
From 5 and 6 inch pots, 3 to 4 feet.....	.50	4.00	35.00

Callistemon Lanceolatus (Bottle Brush). Leaves short and evergreen. Flowers are usually in shades of red and very showy. Blooms in early summer.

	each	per 10	per 100
Field grown, 1½ to 2 feet.....	\$.40	\$3.50	\$30.00
From 6 inch pots, 2½ to 3 feet.....	.40	3.50	30.00
From 4 and 5 inch pots, 1½ to 2 feet....	.30	2.50	20.00
From 4 inch pots, 1 to 1½ feet.....	.25	2.00	18.00

Camellia Japonica. 10 feet. Handsome shrub. Dark green glossy leaves. Flowers single and double, ranging through pink, red and white. Do best on north side of building. Prefers shade.

	each	per 10
From 8 inch pots, 3 to 4 feet.....	\$3.00	\$25.00
From 6 inch pots, 2 to 3 feet.....	1.50	12.50

Camphora Officinalis. 40 feet. Very handsome ornamental trees, of regular form. Good for lawn and avenue planting. Foliage clean, bright green. Leaves strongly scented with camphor.

	each	per 10
In tubs, 2 to 3 feet.....	\$1.75	\$15.00

Carpenteria Californica. 10 feet. A native shrub of much beauty. Flowers very striking, large fragrant and pure white with enlarged yellow stamens.

	each	per 10
Field grown, 1½ to 2 feet.....	\$.75	\$6.00
From 5 and 6 inch pots, 1 to 1½ feet.....	.60	5.00

Cassia Tomentosa. 8 feet. A continuous blooming, quick growing shrub with handsome foliage. Quantities of bright golden yellow blooms borne in clusters.

	each	per 10
From 6 inch pots, 2 to 3 feet.....	\$.35	\$3.00

Casuarina Stricta (She Oak, Beefwood). 30 feet. A compact Australian exotic especially adapted to dry hillside planting or landscape garden effect. Numerous slender dense branchlets plummy and exceedingly decorative. Stem reddish colored.

	each	per 10	per 100
From 6 and 7 inch pots, 6 to 8 feet.....	\$.60	\$5.50	\$50.00
From 6 inch pots, 5 to 6 feet.....	.50	4.50	40.00
From 6 inch pots, 4 to 5 feet.....	.40	3.50	30.00

Ceanothus Thyrsiflorus (California Wild Lilac). 20 feet. A native shrub, sometimes becoming a small tree. Leaves small and shiny. A very fine free flowering species of beautiful pale blue color. Blooms from May to July.

	each	per 10	per 100
From 6 and 7 inch pots, 2 to 3 feet.....	\$.60	\$5.00	\$
From 4 inch pots, 1 to 1½ feet.....	.50	4.00	35.00

Cedrus Atlantica (Mt. Atlas Cedar) and **Cedrus Atlantica Glauca** (Silvery leaf form). Large pyramidal open tree with upright leading shoots. Leaves rigid glaucous green.

	each	per 10
Field grown, 3 to 4 feet.....	\$2.00	\$17.50
Field grown, 2 to 3 feet.....	1.50	12.50

Cedrus Deodora (Deodor Himalayan Cedar). Becomes a much larger tree than any other of the species, growing under favorable conditions to the height of 200 feet. The lower limbs lie on the ground and the upper ones droop gracefully.

	each	per 10
Field grown, 3 to 4 feet.....	\$2.00	\$17.50
Field grown, 2 to 3 feet.....	1.50	12.50

Cestrum Aurantiacum. 15 feet. Shrub of half climbing habit with large oval waxy leaves. Tubular flowers 1½ inches long, in large orange-yellow umbels. Blooms in late fall, followed by large showy white berries.

	each	per 10
Field grown, 2 to 3 feet.....	\$.60	\$5.00
Field grown, 1½ to 2 feet.....	.40	3.50

Cherry (California Evergreen). See Laurel.

Choisya Ternata (Mexican Orange). 8 feet. Attractive shrub of compact habit, light green leaves divided into three leaflets, covered with white orange scented flowers, borne in broad clusters. Very effective for shrubbery borders.

	each	per 10	per 100
Field grown, 1 to 1½ feet.....	\$.75	\$6.00	\$50.00

Cistus Ladaniferus Maculatus. 4 feet. Small shrub bearing profusion of white flowers about three inches broad. Shaped like a single rose. Petals marked with conspicuous crimson spot. Continuous bloomer.

	each	per 10	per 100
Field grown, 1 to 1½ feet.....	\$.50	\$4.50	\$40.00

Cistus Rosea. 3 feet. (Similar to *C. Ladaniferus maculatus*). Foliage somewhat smaller, flowers strong pink, almost cerise. A good bloomer.

	each	per 10	per 100
1 to 1½ feet.....	\$.50	\$4.50	\$40.00

Cistus Salvifolia. 4 feet. Very fine small compact trailing shrub with small deep green leaves. Flowers pure white, one and one-half inches across. A good bloomer.

	each	per 10	per 100
1 to 1½ feet.....	\$.50	\$4.50	\$40.00

Christmas Berry (See *Heteromeles*).

Coprosma Baueri. One of the handsomest of our low-growing shrubs, with round leaves shiny deep lustrous green, which refuse to hold dust. Berries yellow. Plant has more or less prostrate habit.

Field grown, 1½ to 2 feet.....	\$.75	\$6.00	\$50.00
Field grown, 1 to 1½ feet.....	.60	5.00	40.00

Cornus Capitata (Evergreen Dogwood). Very handsome compact shrub, bearing creamy white flowers in June, followed by large scarlet fruit.

	each	per 10
From 6 inch pots, 2½ to 3 feet.....	\$.50	\$4.00

Coronilla Glauca. 3 feet. A very graceful small shrub. Fine glaucous foliage. Fragrant flowers deep golden yellow in crown-like clusters. Blooms throughout summer.

	each	per 10	per 100
From 4 inch pots, 1 foot.....	\$.50	\$4.00	\$30.00

Cotoneaster Acuminata (Nepalense). 6 feet. Semi-evergreen shrub with large downy pointed leaves. Carries pinkish white flowers in June, followed by small deep red berries.

	each	per 10	per 100
Field grown, 2 to 3 feet.....	\$.75	\$6.00	\$50.00

Cotoneaster Angustifolia. Growth spreading and sometimes spiny. Leaves long and narrow. Berries very abundant, orange yellow and hold their color throughout the winter.

	each	per 10	per 100
Field grown, 3 to 4 feet.....	\$1.50	\$12.50	\$100.00
Field grown, 2 to 3 feet.....	1.00	7.50	60.00

Cotoneaster Frigida. 20 feet. (Deciduous.) Large shrub. Free flowering. Berries scarlet. One of the most beautiful of all the *Cotoneasters* in both fruit and flower.

	each	per 10
Field grown, 3 to 4 feet.....	\$1.00	\$8.00
Field grown, 2 to 3 feet.....	.75	6.00

Cotoneaster Horizontalis. Low, prostrate variety with stout horizontal branches. Leaves small, dark green. Large rose-colored flowers followed by bright red berries in fall. Fine for rockeries and steep slopes.

	each	per 10
From 6 and 7 inch pots, 1½ to 2 feet.....	\$1.00	\$8.00

Cotoneaster Microphylla (Himalayan Mountains). Prostrate shrub very densely branched. Leaves minute. Flowers white, followed by purplish-red berries. Excellent for rock gardens and as a ground cover.

	each	per 10	per 100
Field grown branched plants, 1½ to 2 feet	\$1.25	\$10.00	\$85.00

Field grown, 1½ to 2 feet.....	\$.75	\$6.00	\$50.00
Field grown, 1 to 1½ feet.....	.60	5.00	40.00

Eleagnus Pungens Argentea. 6 feet. Japan. Striking shrub with rather large creamy margined leaves, slightly wavy. An attractive and ornamental shrub.

	each	per 10	per 100
Field grown, 1 to 1½ feet.....	\$.60	\$5.00	\$40.00

ERICA.

Much branched low growing evergreen shrubs with needle-like leaves in whorls of three to six and great numbers of small flowers ranging from white through shades of pink and purple, of which the most are bell-shaped and tubular.

We recommend the heather particularly on account of its beauty and the durability of its flowers. Most varieties hold their flowers for a period of six weeks and often longer. When cut it is unexcelled for decorative purposes, flower baskets, etc. The innumerable varieties make it possible to have Heather in bloom at any season in California.

All the care necessary is to give them a sandy soil, plenty of water, and a prune back immediately after flowering, so as to encourage the forming of young growths on which they will flower the following season.

We cannot too highly recommend Heather as a shrub of service and beauty.

E. Codonodes Veitchii. A strong grower, soft-green foliage, white with pale pink shading, flowering from February to May.

	each	per 10	per 100
Field grown, 1 to 1½ feet.....	\$1.00	\$8.50	\$75.00

Field grown, 1 to 1½ feet.....	.50	4.00	35.00

We have the following varieties:

Single Cerise, cerise.

Prof. Durand, clear yellow.

Mme. Regie, light yellow.

Mme. Chas. Baltet, bluish pink to carmine, semi double.

Lillian Henderson, double white.

Claude Blanc, scarlet, single.

Henry Mares, light pink, double.

Madonna grandiflora, semi double, pure white.

Pepper (See *Schinus Molle*).

Picea Pungens Kosteriana. Dense pyramidal tree with stout horizontal pungent foliage which is extremely glaucous. Bears clusters of cones, growing vigorously where many evergreens fail. Withstands coldest season.

	each	per 10
Field grown, 3 feet.....	\$4.00	\$35.00

Pimelea (Australia). 2 to 3 feet. Neat, compact, veronica-like shrub with small decussated leaves. Rosy pink flowers formed in umbels at ends of shoots. Most serviceable for low grouping. Flowers very freely.

	each	per 10	per 100
From 6 inch pots, 1 to 1½ feet.....	\$1.00	\$7.50	\$60.00

Pinus Jeffreyi. Short spreading pendulous branches. Forms a narrow spire-like head. Resembles *ponderosa*. Leaves dark green, six inches long. Cones bright brown, 9 inches long. Long lived.

	each	per 10	per 100
Field grown, 1 foot.....	\$.30	\$2.50	\$20.00

Pinus Canariensis (Canary Island). 80 feet. A very handsome pine forming a broad round-topped head. Branchlets yellowish; leaves slender, spreading and pendulous, light green and lustrous, 9 to 12 inches long.

	each	per 10	per 100
Field grown, 1½ to 2 feet.....	\$.75	\$6.00	\$50.00
Field grown, 1 to 1½ feet.....	.60	5.00	40.00

Pinus Coulteri (Bull Pine; Big Cone Pine). California. 80 feet. Pine of sharp conical form, very dark brown rugged bark. Leaves stiff, strong, dark bluish-green, clustered at the ends of branchlets. Average length 10 inches. Rapid grower. Large cones.

	each	per 10	per 100
Field grown, 1½ to 2 feet.....	\$.60	\$5.00	\$40.00

Pinus Edulis (Nut Pine, Pinon). 30 feet. Mexico and Texas. Small, spreading tree; horizontal branches forming round topped head. Leaves 1 to 1½ inches long; rigid. Cones small.

	each	per 10
Field grown, 1 foot.....	\$.40	\$3.50

Pinus Flexulis (Limber Pine). An irregular shaped tree with long branches growing to the ground. Bark dark brown, deeply checked into oblong blocks. Back of small branchlets often white. Leaves rigid.

	each	per 10	per 100
Field grown, 1 foot.....	\$.30	\$2.50	\$20.00

Pinus Halapensis (Aleppo Pine). Western Asia. 60 feet. A rapid growing spreading tree, with short branches forming round topped head. Light yellowish green leaves.

3 to 4 feet.....	.85	\$7.50	\$60.00
2 to 3 feet.....	.60	5.00	40.00
1 to 1½ feet.....	.50	4.00	35.00

Pittosporum Nigricans (*tenuifolium*). Similar in habit to *Eugenoides*, with considerable smaller leaves, somewhat darker on black stems. Flowers black. One of the finest hedge plants we know.

	each	per 10	per 100
2 to 3 feet.....	\$.75	\$6.00	\$50.00
1½ to 2 feet.....	.60	5.00	40.00

Pittosporum Phylliraeoides. Unlike any of the other *Pittosporums*. Grows to tree height and resembles weeping willow. Leaves ¼-inch wide, 2 to 3 inches long. Flowers yellow, fragrant. Well suited for dry situations. New.

	each	per 10	per 100	per M
From 4 inch pots. 1 to 1½ feet	\$.35	\$3.00	\$25.00	\$200.00

Pittosporum Rhombifolium. 50 feet. Fine shrub of pyramidal growth, with rhomboid oval-shaped leaves. Coarsely serrated and deep green. Flowers greenish white. Tallest growing of all the *Pittosporums*. Masses of Orange berries in the fall. New.

	each	per 10	per 100
Field grown, 3 to 4 feet.....	\$1.00	\$7.50	\$60.00

Pittosporum Tobira (China). 10 feet. Dense globular shrub. Leaves obovate, thick and leathery, dark green above, lighter below. Covered with numerous creamy, scented flowers, much like orange blossoms.

	each	per 10
Field grown, 1½ to 2 feet.....	\$1.00	\$7.50
Field grown, 1 to 1½ feet.....	.75	6.00

Pittosporum Tobira Variegatum. Similar in habit to above but with leaves strongly and conspicuously margined white. One of the handsomest shrubs we offer.

	each	per 10
1½ feet	\$.75	\$6.00

Pittosporum Undulatum (Australian *Daphne*, Victorian Box). 40 feet. Large shrub or small tree with rich deep green foliage, wavy margined. Flowers creamy white. Very fragrant. May be used as a hedge plant or as a street tree. A very clean and most effective shrub for group planting.

	each	per 10	per 100
3 to 4 feet.....	\$1.00	\$7.50	\$60.00
2 to 3 feet.....	.75	6.00

Polygala Dalmaisiana. Dense globular shrub of moderate growth, with slender branches of soft, pleasing appearance and slightly glaucous. Flowers pea-shaped and magenta pink. This shrub is constantly covered with flowers.

	each	per 10	per 100
1 to 1½ feet.....	\$.50	\$4.00	\$35.00

Prunus (See Laurel).

Raphiolepis Japonica. 12 feet. Low growing compact shrub with leathery dark green leaves, round and lustrous. Flowers waxy and white. Well suited to warm localities.

	each	per 10
1 foot	\$.60	\$5.00

Retinospora Obtusa Nana and Retinospora Obtusa Nana Aurea (Golden form). With spreading, graceful foliage and bright green, glaucous beneath. Much used for tub work and in Japanese gardens.

Tubbed, 4 to 5 feet.....	\$7.50
Tubbed, 3 to 4 feet.....	5.00
Tubbed, 2 to 3 feet.....	3.00

Retinospora Filifera and Retinospora Filifera Aurea (Golden foliage). Evergreen pendulent Thuya with fine feathery green foliage, pendulous.

Field grown, 4 to 5 feet.....	\$3.50
Field grown, 3 to 4 feet.....	3.00
Field grown, 2 to 3 feet.....	2.00

Rosedale Thuya. Most distinct and valuable sort. Foliage of compact tufted character. Color steel gray. Minute linear leaves.

	each	per 10	per 100
Field grown, 1 to 1½ feet.....	\$1.00	\$8.00	\$75.00

Rhododendrons. We cannot too highly recommend this magnificent class of ornamental evergreen shrubs. Especially for grouping where rich color effects are desired. To produce the most charming effects they should be planted in groups in moist shady situations, where soil is light and free of alkali. Their dark green foliage is exceedingly attractive even when the blooming season is past. Colors range from white through shades of red and purple. Bloom during winter months. We make a specialty of these plants.

	each	per 10	per 100
15 to 18 inches.....	\$1.75	\$15.00	\$100.00
18 to 24 inches.....	2.00	17.50	150.00

We offer the following varieties:

Alexander Adie	rosy scarlet.
Blandyanum	beautiful rosy crimson, fine form, excellent foliage and very abundant bloomer.
Charlie Waterer.....	scarlet, light center, grand.
Caractacus	purplish crimson.
Cynthia	good rosy crimson.
Gomer Waterer.....	white, slightly blushed, enormous truss.
John Waterer.....	intense glowing carmine, very large flower; fine form and most abundant bloomer.
John Walter	rich crimson, fine form, and very fine habit.
Kate Waterer.....	clear rosy crimson, with a large yellow mark, without doubt the most distinct and attractive variety.
Mrs. John Clutton.....	fine clear white, good form.
Lady Clermont.....	deep rose, dark marking.
Minnie	bluish white, with very large blotch of orange spots, very fine.
Parsons gloriosa	rosy pink.
Parsons grandiflora	blush.
Roseum elegans.....	good rose.
Catawbiense grandiflora....	beautiful mauve.

Rhododendron Pink Pearl. The finest of the pink flowering varieties, carries immense trusses of flesh colored pink flowers.

	each	
8 to 10 buds.....	\$3.00	
10 to 15 buds.....	5.00	

Romneya Coulteri (Matilija Poppy). Without question the finest of our native plants. Half shrubby, forming a large bush of silvery hue. Large snowy white frilled blossoms with a bunch of golden-yellow stamens which form center. Flowers often six inches in diameter.

	each	per 10
From 6 inch pots.....	\$1.00	\$8.00
From 5 inch pots.....	.75	6.00

Schinus Molle (Pepper Tree). South America. 40 feet. Round headed tree with pungent, aromatic, finely divided compound leaves. Pendulent habit. Well known in California.

	each	per 10	per 100
5 to 6 feet.....	\$.60	\$5.00	\$40.00
From 5 and 6 inch pots, 2½ to 3 feet....	.35	3.00	25.00

Sciadopitys Verticillata (Umbrella Pine). Japan. A remarkable and beautiful Japanese tree with compact ascending branches, forming a narrow pyramidal head. Leaves long, narrow, blunt and shining green in whorls or umbrella-like tufts. Suitable for tub culture.

	each	per 10
Established in ornamental boxes, 6 to 7 feet.....	\$7.50	\$60.00
Established in ornamental boxes, 2 to 3 feet.....	3.00	25.00

Sequoia Gigantea (California Big Tree). 300 feet. Ranked as the finest of all forest trees. Noted everywhere for its size and beauty. Rapid grower. Trunk erect and tapering, thickly furnished with branches. General appearance conical. Leaves spirally arranged around branchlet and are dark blue-green, scaly and bract-like.

	each	per 10
3 to 4 feet.....	\$3.00	\$25.00
2 to 3 feet.....	2.00	17.50

Sequoia Sempervirens (Redwood). 400 feet. Totally different from *Sequoia gigantea*. Branches and leaves spreading, growth narrower and less compact. Foliage broader. Well known to every Californian.

1½ to 2 feet.....	.50	4.00	35.00

Thuyopsis Dolobrata. Japan. 50 feet. Very distinct from other Conifers; branches irregularly scattered, horizontally spreading; tips of branches creamy white, branchlets flattened fan shaped.

	each	per 10
Field grown, 2 to 3 feet.....	\$1.75	\$15.00
Field grown, 1 to 1½ feet.....	1.50	12.50

Tristania Conferta (Brisbane Box). Queensland. 150 feet. A handsome evergreen shade tree with light green oval shaped leaves about 8 inches long, clustered at ends of branches. Flowers star-shaped.

	each	per 10	per 100
From 6 inch pots, 3 to 4 feet.....	\$1.00	\$7.50	\$60.00

Veronica. (New Zealand). A genus comprising about 150 species of shrubs all being showy and free flowering with blue, crimson and white flowers. They thrive in the sun or in the shade and stand exposure to harsh winds better than most shrubs. Excellent for hedges and also for finishing groups of erect growing shrubs and connecting them with grassy slope or level lawn. Foliage glossy, smooth, carries no dust. Flowers in racemes, continuously in bloom.

Veronica Andersonii. Long leaves, glossy green. Flowers bluish violet in long spikes. Rapid grower.

	each	per 10	per 100
Field grown, 1 to 1½ feet.....	\$.40	\$3.50	\$30.00

Veronica Buxifolia (Correctly *Traversii*). Box leaved Veronica. Small shrub of upright compact growth. Leaves far smaller than other varieties. Flowers pure white in great profusion.

	each	per 10	per 100
Field grown, 1 to 1½ feet.....	\$.40	\$3.50	\$30.00

Veronica Decussata. Rather dwarf leaves, light green, closely set and decussated. Flowers large, violet blue. An excellent hedge plant.

	each	per 10	per 100
Field grown, 1½ to 2 feet.....	\$.60	\$5.00	\$40.00
Field grown, 1 to 1½ feet.....	.40	3.50	30.00

Veronica Elliptica. Growth upright. Small leaves bright green. Flowers large in loose spikes. Violet in bud to pure white when mature.

	each	per 10	per 100
Field grown, 1½ to 2 feet.....	\$.60	\$5.00	\$40.00
Field grown, 1 to 1½ feet.....	.40	3.50	30.00

Veronica Imperialis (Imperial Veronica). Strong growing and rather spreading. Leaves large, dark green with purple margins and midribs. Flowers in long spikes, amaranth red.

	each	per 10	per 100
Field grown, 1½ to 2 feet.....	\$.60	\$5.00	\$40.00
Field grown, 1 to 1½ feet.....	.40	3.50	30.00

We have also the following new varieties. Sizes and prices on application.

Menzesii	Angustifolia
Glaucophylla	Lewisii
Caeria Greyii	Barkerii (creeper)
Pinquifolia	Salicifolia
Pemelioides cerrola glauca	Glauca
Decumbens	

Deciduous Ornamental Trees and Shrubs

ALBIZZIA JULIBRISSIN.

Acacia julibrissin. Asia and Africa. 40 feet. Numerous leaflets, feathery and finely divided. Spreading growth, hardy. Masses of pink flowers crowded on upper ends of branches.

	each	per 10
6 to 8 feet.....	\$.75	\$6.00

ALMOND (Prunus).

Prunus. Single and double flowering. Profusion of pink flowers in early spring.

	each	per 10
6 to 8 feet.....	\$.75	\$6.00
4 to 6 feet.....	.50	4.00

Prunus amygdalus fl. pl. Double flowering pink.

Prunus Davidiana alba. White flowering.

Prunus Davidiana rubra. Single, red.

ALTHEA (Hibiscus).

Hibiscus syriacus (Rose of Sharon). Large shrub with many branches. Blooms profusely in late fall. Leaves appear late in spring. We have a variety of sorts.

	each	per 10	per 100
2 to 3 feet.....	\$.50	\$4.00	\$30.00

APPLE (Pyrus).

Pyrus. The flowering apple and crap-apple has many varieties which form small trees and flower freely in early spring. We have the following varieties:

Pyrus carnea pleno. Flowers double, flesh pink.

Pyrus coronaria. Fragrant garland, single flowers, bluish pink.

Pyrus floribunda. Flowers single, carmine to pale flesh color.

Pyrus spectabilis (Chinese flowering apple). Flowers single, coral red in bud.

	each	per 10
4 to 6 feet.....	\$.50	\$4.00

ASH (Fraxinus).

Fraxinus Americana (American White Ash). Tall tree, rapid growth, trunk clean and straight. Rounded head.

	each	per 10
10 to 12 feet.....	\$1.00	\$8.00

Fraxinus Excelsior (European Ash). Similar to above. Buds black.

	each	per 10
10 to 12 feet.....	\$1.00	\$8.00

Fraxinus excelsior pendula. Weeping form of above. One of the best pendulous trees for forming arbors and shady seats.

	each	per 10
10 to 12 feet.....	\$3.50	\$32.50

Fraxinus aurea pendula (yellow-wooded weeping Ash). The drooping branches in this variety make it conspicuous.

	each	per 10
10 to 12 feet.....	\$3.50	\$32.50

BARBERRY (Berberis).

Berberis vulgaris (Common Barberry). 8 feet. Bright green leaves, 1 to 2 inches long. Foliage, light green. Berries numerous, drooping racemes. Flowers golden yellow.

	each	per 10
2 to 3 feet.....	\$.50	\$4.00
1 to 2 feet.....	.35	3.00

Berberis Thunbergi (Thunberg's Barberry). 4 feet. Remarkable for its low, dense, horizontal growth, and its large, brilliant red fruits, remaining fresh until the following spring. Leaves beautifully bright scarlet colored in fall. Flowers pale yellow.

	each	per 10
2 to 3 feet.....	\$.50	\$4.00
1 to 2 feet.....	.35	3.00

Berberis Atropurpurea. A variety of vulgaris with purple leaves.

	each	per 10
2 to 3 feet.....	\$.50	\$4.00

BEECH (Fagus).

Fagus Sylvatica (European Beech). Fine tree with feathery, short and deep glossy green foliage. Grows to a height of 80 feet.

	each	per 10
6 to 8 feet.....	\$.75	\$6.00

Fagus Sylvatica purpurea riversi (Purple leaved Beech). Growth slow and compact. Leaves glossy and clean, first purplish crimson, then changing to a deep lustrous purple. Color retained through the season. Most desirable of all the purple leaved trees.

	each	per 10
5 to 6 feet.....	\$1.50	\$12.50

BIRCH (Betula).

B. alba (European white Birch). Medium to large trees. White bark on older limbs and trunk. Somewhat irregular in growth, young branches drooping in habit.

	each	per 10
6 to 8 feet.....	\$1.00	\$7.50

B. Alba pendula laciniata. Foliage finely and deeply cut. Main trunk perfectly straight. Fine slender shoots hang vertically. Most beautiful tree we have to offer.

	each	per 10
8 to 10 feet.....	\$1.50	\$12.50

CATALPA.

Catalpa speciosa. Finely shaped standard trees with large heart-shaped leaves. Flowers two to three inches in diameter, tubular, similar to Bignonia, borne in clusters. A rapid grower.

6 to 8 feet.....	\$.75	\$6.00
------------------	--------	--------

CRAPE MYRTLE (*Lagerstroemia indica*).

Lagerstroemia indica. China. Strong growing shrub producing an abundance of soft fringed flowers. Flowers bright pink, borne in large racemes at tips of new growths. Bark smooth.

	each	per 10
6 to 8 feet.....	\$2.00	\$17.50
3 to 4 feet.....	1.00	7.50
2 to 3 feet.....	.75	6.00

CURRANT (*Ribes*).

Ribes aureum (Golden Flowering Currant). Free growing handsome small shrub, graceful habit. Spicy scented, showy, yellow flowers, followed by dark brown or black fruit.

	each	per 10
3 to 4 feet.....	\$.50	\$4.00
2 to 3 feet.....	.40	3.50

Ribes sanguineum (Red Flowering Currant). Flowers vary from red to pink. Fruit bitter bluish black.

	each	per 10
3 to 4 feet.....	\$.50	\$4.00
2 to 3 feet.....	.40	3.50

Ribes Gordonianum. Flowers crimson and yellow in hanging clusters.

	each	per 10
2 to 3 feet.....	\$.40	\$3.50

DEUTZIA.

Deutzia crenata. Single and double. Japanese shrub with flowers in drooping racemes, white, tinged pink. Blooms in spring and early summer. Hardy and of easy cultivation.

	each	per 10
2 to 3 feet.....	\$.40	\$3.50

DOGWOOD (*Cornus*).

Cornus sanguinea. Quick growing shrub, fine for water-side planting. Purple or blood-red branches. Downy leaves. Flowers greenish white, dense clusters. Fruit black.

	each	per 10
2 to 3 feet.....	\$.40	\$3.50

ELDER (*Sambucus*).

Sambucus canadensis aurea (Golden Elder) and **Sambucus canadensis variegated** (Variegated Elder). Erect, large shrubs of rapid growth. Flowers white in flat cymes; fruit black.

	each	per 10

Dolichos Lablab Lignosus (Australian Pea Vine). Climber of much merit with leaves of three broad and pointed leaflets, covered with profusion of purple flowers in long erect racemes, resembling miniature sweet-peas. Almost a continuous bloomer.

	each	per 10	per 100
From 4 and 5 inch pots.....	\$.40	\$3.50	\$30.00

Ficus Pumila (*Ficus repens*) (Climbing Fig). China, Japan, Australia. A prostrate or climbing vine of slow growth, and small roundish dark green leaves. By means of aerial roots it clings easily to walls like ivy. Makes a dense mat. Fine for rockeries.

	each	per 10	per 100
From 4 and 5 inch pots.....	\$.40	\$3.50	\$30.00

Honeysuckle (*Lonicera*). Ornamental vines of varying habit. The climbing honeysuckles are well adapted for walls, arbors and other trellis work. They have handsome sweet-scented flowers. They can be mixed well with other climbers and also serve as a ground cover. Flowers vary through white, yellow, pink and scarlet. There are many varieties.

	each	per 10	per 100
From 5 inch pots.....	\$.50	\$4.00	\$35.00

Ivy (*Hedera Helix*). A high growing or dense creeping vine with large, thick, shiny, leathery leaves. Tips of young branches covered with white hair; fruit black, sometimes yellow.

	each	per 10	per 100
From 4 and 5 inch pots.....	\$.25	\$2.00	\$15.00

Jasmine Primulinum. The new magnificent variety from China with large golden yellow flowers 1½ to 2 inches in diameter. A hardy rapid grower, flowering in winter and early spring. Covering the whole length of branches.

	each	per 10	per 100
From 5 and 6 inch pots.....	\$.40	\$3.00	\$20.00

Muehlenbeckia Complexa (Wire Vine) (Maiden Hair Vine). (New Zealand Mattress Vine.) A twining, drooping, slender, much branched plant of rapid growth, leaves small, light green and round. Stems slender wire-like, deep reddish brown. Whole plant has fern-like appearance. Fine for tree stumps, walls, pergolas, etc. Flowers inconspicuous. If grown on chicken wire it makes a beautiful, compact hedge.

	each	per 10	per 100
From 3 and 4 inch pots.....	\$.35	\$3.00	\$25.00

Passion Vines. A large family of rapid growing evergreen vines, climbing by tendrils. Flowers showy, complex and star-like. Colors in shades of white, red, blue and orange.

Passiflora caerulea. Flowers greenish white, corona purple at base, white in middle and blue at ends.

Tacsonia manicata ignea. Flowers scarlet.

Tacsonia mollissima. Flowers pink.

	each	per 10	per 100
From 4 and 5 inch pots.....	\$.40	\$3.50	\$30.00

Plumbago Capensis (Cape of Good Hope). A fall blooming vine with pleasing green leaves and pale blue flowers, borne in great profusion. It can be trained as a vine, or kept low so as to form an excellent ground cover.

	each	per 10	per 100
Field grown	\$.50	\$4.00	\$30.00

Plumbago Capensis Alba. A form of the above with white flowers.

	each	per 10	per 100
Field grown	\$.50	\$4.00	\$30.00

Solanum Jasminoides (Potato Vine). 20 feet. South America. A well known vine of strong, rapid growth with small leaves and star shaped white flowers in numerous clusters.

	each	per 10	per 100
From 4 and 5 inch pots.....	\$.40	\$3.50	\$30.00

Tecoma Australis (Wonga-Wonga Vine). A very valuable ever-green, half climbing shrub of strong, rapid growth (Australia). Dark green, glossy foliage. Large leaflets. Small flowers borne profusely in early spring.

	each	per 10	per 100
From 4 and 5 inch pots.....	\$.50	\$4.00	\$35.00

Tecoma Japonica (Chinese Trumpet Creeper). China and Japan. Climbing shrub with few or no aerial roots. Flowers in terminal racemes, funnel shaped, scarlet, two inches across. Blooms August and September.

	each	per 10	per 100
Field grown	\$.40	\$3.50	\$30.00

Wisteria. Hardy, fast and tall growing climber. Pale green compound foliage. Flowers pea-shaped in drooping racemes in spring.

	each	per 10	per 100
Field grown	\$1.50	\$12.50	\$100.00

Wisteria Chinensis (Chinese purple).

Wisteria Chinensis fl. pl. (Chinese double purple).

Wisteria Chinensis albaflora (Chinese white).

Wisteria Multijuga (Japanese purple).

Wisteria Multijuga alba (Japanese white).

Palms

Chamaerops Trachycarpus Excelsus (Wind Mill Palm). Asia. Very hardy, compact palm. Trunk covered with coarse brown fibre. Leaf segments narrow and flexible, the outer third usually droops on older leaves. Used for street planting.

TREE FERNS.

Under this head we carry the following:

<i>Cyathea dealbata.</i>	<i>Dicksonia Antartica.</i>
<i>Cyathea medullaris.</i>	<i>Dicksonia Squarrosa.</i>

These are among the most important Tree Ferns, both because of their beauty and of their relative hardiness. They do well out doors in most parts of California. Excellent where tropical effects are desired.

Sizes and Prices on Application.

Bamboos and Grasses

Arundo Donax Var. 20 feet. A giant reed well known in California. Foliage broad, and striped with longitudinal stripes of green and creamy white. Fine as an individual plant or with other grasses in waterside plantings. Belongs to the bamboo family.

	each	per 10	per 100
Balled clumps, 6 to 8 feet.....	\$.75	\$6.00	\$50.00

Bamboo. There are few subjects more valuable for garden ornamentation than Bamboo. Good for waterside planting, lawn specimens or heavy jungle effects. Quick growers. Require comparatively little attention.

	each	per 10
Balled clumps, 5 to 6 feet.....	\$1.50	\$12.50
Balled clumps, 4 to 5 feet.....	1.00	7.50
Balled clumps, 3 to 4 feet.....	.75	6.00
Balled clumps, 2 to 3 feet.....	.60	5.00

Giant Bamboo. Established specimens. Prices on application.

Miscellaneous Plants

Agave (Century Plant). Well known plant suitable for tub culture or tropical effect. Leaves 3 to 6 feet long, 6 to 9 inches wide, fleshy and rigid, ending in spines and having pricked margins. More or less concave, flowers yellow-green in dense globular panicles, and cluster around an erect central stem, rising from the center of a rosette of leaves, sometimes reaching the height of thirty feet.

	each	per 10	per 100
Field grown, 2 feet.....	\$1.00	\$7.50	\$50.00

Agapanthus Umbellatus (African Lily). Lily of the Nile, Cape of Good Hope. Fine summer flowering tuberous rooted stemless plant. Leaves strap-shaped. Flowers blue in large umbels, 20 to 50 flowers in each umbell.

Clumps	\$.50	\$4.00	\$35.00
--------------	--------	--------	---------

Amaryllis Hybrids. Bulbous plants cultivated in pots. Leaves strap-shaped and lie down in early summer. Flowers tubular and star-shaped, 8 inches in diameter, ranging in color from white and pink to bright red, crimson, maroon, mottled, striped, etc. Stems attain a height of 3 to 3½ feet, displaying the blooms to great advantage. Easy of culture. Vigor increasing with age.

	each	per 10
From 6 to 7 inch pots.....	\$.75	\$5.00

Aspedistra Lurida. China. Handsome decorative foliage plant with long stiff deep green wavy leaves, from 1 to 2 feet long. Thrives under most unfavorable conditions, retaining a fresh appearance even when it does not receive sufficient light or water. Excellent as a house plant.

10 inch pans (December).....	\$3.50	\$
8 inch pans (December).....	2.50
From 7 inch pots (December).....	1.50
From 5 and 6 inch pots (December).....	1.00
From 3½ inch pots (June and July).....	45.00

Cyclamen. A pretty, small plant with round fleshy leaves, borne on long stems; flowers of various shades and of peculiar form, appearing from November to May.

	each
6 inch	\$.75
7 inch	1.00
8 inch	1.50
10 inch	2.00

Fuchsia Speciosa. Garden Hybrid. The graceful habit of the plants, the excellent coloring and form of the flowers and the profusion of blooms makes Fuchsias a great garden favorite. Prefers shady situations.

	each	per 10
In variety, 6 and 7 inch pots.....	\$.60	\$5.00
In variety, 5 and 6 inch pots.....	.35	3.00

Trained specimen standards. Prices on application.

Gazania Splendens (African Border Sun Flower). A low trailing plant with bright yellow flowers having conspicuous black and white spots at base of petals. Flowers shaped like marguerites. A fall and winter bloomer.

In flats of 50.....	\$2.50
---------------------	--------

Geranium (Pelargonium hortum). Profuse blooming plant with fleshy stems and foliage. Known to everybody. There are an unlimited variety of shades. Very adaptable to California conditions.

	each	per 10	per 100
In variety, 4 and 5 inch pots.....	\$.25	\$2.00	\$15.00
In variety, 2½ inch pots.....	.15	1.00	8.00

Gerbera Jamesoni (Transvaal Daisy). Herbaceous Perennial. Flowers solitary, three inches across, in rays borne on long stalk, bright orange and yellow. Leaves 5 to 10 inches long, 2 to 3 inches broad, roughly toothed. A recent and successful introduction.

	each	per 10	per 100
From 6 inch pots.....	\$.50	\$4.00	\$35.00

Heliotrope (*Heliotropium peruvianum*). Peru. Well known and much used plant with fragrant bluish lilac flowers and rich dark green, prominently veined leaves. Leaves somewhat wrinkled and hairy. Can be used as a bedding plant, vine or low shrub.

	each	per 10	per 100
From 6 inch pots.....	\$.50	\$4.00	\$35.00

Iris. (German). Well known moisture loving plants with flowers in many colors, principally blue and white. Leaves 1 to 1½ feet long.

	each	per 10	per 100
Clumps	\$.40	\$3.50	\$30.00

Lavender (*Lavandula*). An ancient garden favorite, known by everyone because of its pleasant odor. Flowers blue or violet.

	each	per 10	per 100
1½ feet	\$.40	\$3.50	\$30.00

Lotus Bertholetti (*Lotus peliorynchus*). Small, much branched slender shrub with a silvery hue and trailing habit. Cultivated mainly in hanging baskets or in places where a trailer or ground cover is desired. The whole plant silvery gray. Flowers scarlet and crimson about 1½ inches long in loose clusters towards end of drooping shoots.

	each	per 10	per 100
From 4 and 5 inch pots.....	\$.50	\$4.00	\$35.00

Pampas Grass (*Gynerium argenteum*). South America. Well known by its dense silky panicles of ivory-white plume-like flowers, borne on its straight stalks 4 feet to 6 feet in length. Leaves grass-like, light green, excellent for water-side planting.

	each	per 10
Large clumps	\$1.00	\$7.50

Pansy (*Viola tricolor*). We carry the finest strains of mixed pansies every year.

	per 10	per 100	per M
Strong plants	\$.35	\$3.00	\$25.00

Pelargoniums (Lady Washington Geraniums). Similar to Geraniums but are woody instead of succulent. Flowers larger and leaves differently shaped.

	each	per 10	per 100
From 4 inch pots.....	\$.25	\$2.00	\$15.00

Phormium Tenax (New Zealand Flax). A stemless plant with numerous sword-like rigid leaves 3 to 6 inches long, 2 to 3 inches wide, dark green with reddish midrib; some are to be found with glaucous leaves. Flowers yellow or red, borne on tall stalks.

	each	per 10
In boxes 18 x 18 inches.....	\$3.50	\$
Field grown	1.00	8.00

Saxifraga Umbrosa (St. Patrick's Cabbage). Large leafed, low growing plant, bearing light pink flowers in erect panicles. Blooms almost continuously. Resistant to frosts.

	each	per 10	per 100
From 6 inch pots.....	\$.50	\$3.50	\$25.00

Shasta Daisy. Bedding plant, shape and color of Marguerite, but several times as large.

	each	per 10	per 100
From 4 inch pots.....	\$.20	\$1.50	\$12.00

Verbena. Well known bedding plants of low growth. Colors range through shades of red, purple, pink and white. We specialize on the wonderful new Crimson King. It is the largest flowered Verbena in existence. Deep scarlet and very attractive. Foliage deep green and leathery. We cannot recommend Crimson King too highly.

	per 10	per 100
Mixed, 2 inch pots.....	\$.75	\$50.00

Yucca Recurvata (Spanish Bayonet). Plant almost stemless. Similar in appearance and closely allied to Dracaenas and Corchylene. Flowers borne in large, erect panicles 4 to 8 feet in length, greenish white. One-half to one inch drooping or hanging long branches, flexulous. Leaves similar to Dracaenas, 2 feet long, 1 to 2 inches broad.

	each	per 10	per 100
In tubs, 1½ to 2 feet.....	\$1.50	\$12.50	\$100.00
